The farmers are moving right along with wheat threshing and will soon have the crop threshed out. The yield is good and the quality is considerably better than was expected.

Parties from the country when coming to town would do well to leave their dogs at home, as the marshals and policemen are killing all dogs found running at large without a muzzle on.

A colored mob hanged a colored rapist for assaulting a colored girl at Hayes, Ark., last week. There is but one punishment in the South for this crime, whether the victim is white or colored.

We vote under the new election law in November by ballot and the Australian plan. It took one day to read the law, and it will take many years for Kentuckians to understand and get used to it. The county committees must institute some plan for instructing voters how to vote, or many votes will be thrown out for lack of information how to prevent their ballots.

Look out for another exodus to Kansas and Oklahoma. The Georgia watermelon crop is short and the colored population is in such dismay that it is ready to stampede in any direction. They managed to stand the grinding of the McKinley tariff and the consequent unprofitableness of cotton, but when the watermelons dry up there is bound to be serious trouble.

The CASH is regarded with greatest respect by BALTZER & SHAW. They will give as good value for it as anybody. Paste this in your hat!

It has been stated, says the Paducah News, that the new election law would effect the primaries ordered for this year. The statement was an error. The law made an exemption of all primaries for 1892. However, the law does away with the regular August elections, setting all elections for November, and to some extent will cut off the vote and thus defeat the August primaries.

A BIG DEAL.

The Ohio Valley and Newport News and Mississippi Valley Railroads Offered for Sale.

The Henderson Gleaner prints the following, which is of interest, though its source is not stated:

"For several months, Mr. C. P. Huntington, who in a great measure owns the Newport News and Mississippi Valley and the Ohio Valley, has openly declared his railway property east of the Mississippi for sale, and in that end has been successful in disposing of the greater part of it. He sold the Chesapeake and Ohio from Cincinnati to Newport News and all of its eastern connection to the Big Four, and said that time has sold the Kentucky Central to the Louisville and Nashville, last week he sold the Louisville, New Orleans and Texas to the Illinois Central, and the present finds him owning no more property east of the Mississippi river than the Newport News and Mississippi Valley and its connecting line, the Ohio Valley. It is now whispered, and with much show of truth that he has disposed of these two roads. Some say he has about gold, while others declare the said actuality. The Erie sees that it is known to all the Bayou in a dugout, a short distance above the mouth, when suddenly he felt a rude grasp upon the prow of his boat, and immediately he lost control of its direction. A greater power than he had it tow. Try as he could he could not escape the mysterious something, until he and his craft had been dragged forty yards into the woods, over which, at the time, the water was standing. It was too dark to discern the object that made game of him, but as four alligators have recently been seen in the Bayou, Bud and his friends lean to the opinion that one of the monsters has paid his respects to him. It is seldom indeed that a gator gets this far north, late president of the Ohio Valley, has sold out his interest, root and branch and retires, of course from the presidency. The new deal now, probably, about to take place is being conducted as secretly as it is possible by the parties interested, and nothing positive will be known, it may be, for weeks to come, but of one thing there is a certainty, there is a hen on the nest and the incubating process is going on with the certainty of a result that will startle the people in this section."

HICKMAN CREAMERY.

Stockholders' Meeting To-morrow.

The subscribers for shares in the Hickman Butter and Cheese Factory are respectfully requested to meet at the City Hall, in Hickman, on Saturday, July 9th, at 2 o'clock, p.m. The object of this meeting is to take the necessary preliminary steps toward organizing the company, selecting persons to select suitable ground for factory, &c. The entire capital stock has been subscribed, but no payments are expected until the factory is completed and in satisfactory operation, &c. The attendance of every subscribing shareholder is desired, that each may have a voice.

I desire to inform my customers and the public, that I have bought the interest of my deceased Brother in the house of J. AMBERG'S Sons, consisting of Dry Goods, Clothing, Groceries, &c., and will continue the business at the old stand.

I find that the stock is too large in each line, and am determined to reduce it, and, in order to do this, I will sell anything in the Dry Goods and Mens Furnishing rooms at less price than ever sold before. And all old goods will be sold at cost, and some far below cost. So you can buy for CASH more goods now than ever before.

I thank my friends and customers for past favors, and shall try to merit a continuance of the same by always buying the best goods, and selling them as low as any house can afford to sell. You will remember that the present stock will be greatly sacrificed, and in order to get some of the many bargains I now offer for CASH, you would do well to come and make selections before it is too late.

The same roll of clerks—Jas. E. Evans, R. L. Bradley and J. H. Miller, with the addition of Mr. Sam Kirkpatrick—will be continued, who are ready to receive and wait upon customers.

I shall strive, in all respects, to hold the house up to its former standard, and trust to merit the continued patronage of that public which has so generously stood by us for the past 30 years.

All outstanding accounts of the firm of J. AMBERG'S Sons must be settled, and I ask all who own said property to come in promptly and make settlement.

Very Respectfully,
H. C. AMBERG.

TO THE PUBLIC!

DIED.

In this city, on Wednesday evening, 6th instant, Mrs. Wm. Thompson, wife of Wm. Thompson, of Mount Creek Mills, aged about 5 months. Burial at Poplar Grove Cemetery.

Little Leslie had been afflicted with his birth, and God, in his unerring wisdom, has taken the little sufferer home. God has had to give up the precious jewels we love so well. Oliver, for fortune kind parents, for he is far happier in that bright and beautiful home above, cared for by the tender Shepherd, who said, "Sister little children to come unto me, for of such is the Kingdom of Heaven." Your little darling cannot return to you again, but, though I thought you could go to him, I could not bear to think of him going to that bright world beyond, where passing and sorrow, pain and death can never come, but where is peace and happiness and joy eternal.
